

Theses and Dissertations Pertaining to the Right-Wing.... rev. 08/29/20

A considerable amount of the history of the conservative and extreme right movements in the United States is captured in academic theses and dissertations. Some of them subsequently were published as books - but most were not published and, consequently, they represent a unique and largely unknown resource for serious students of this subject matter.

What appears below is a representative sample of this material. I have organized hundreds of titles according to the subject codes shown below. Most titles are available for purchase through ProQuest <http://disexpress.umi.com/dxweb> -OR- you may obtain them through inter-library loan from your local library. [Note: many of the newer titles are now available as pdf documents online]

The link to the 107-page bibliography (PDF file) is at the bottom of this webpage: <https://sites.google.com/site/ernie124102/biblio-2>
